

Alphabet Programme Winter/Spring 2019

About Alphabet e.V.

Alphabet e.V. is a non-profit organisation providing English language learning to both English native and non-native speaking children and teens through extra-curricular instruction and activities.

The Alphabet programme offers courses in English for children ages three to eleven. The programme includes workshops to explore language arts, science, geography, history and art-related topics. Through a variety of activities and events, children learn in a fun and playful environment!

Our English library currently contains over 2000 books for ages 3-18, with sections ranging from picture books to young fiction and non-fiction books on a variety of subjects, which are certain to encourage reading in English.

Alphabet offers 1:1 and small group English tutoring and exam preparation (such as BAC or Cambridge exam) courses for teens and young adults. Please contact us for further information.

Native Speaker Courses

Alphabet courses are designed to teach literacy based on the UK National Curriculum, leading to strong reading and writing skills. Our programme builds confidence and language fluency using continually updated materials taught by qualified professionals.

Alphabet follows the Cambridge English Qualification and bases the levels on the Common European Framework of Reference (CEFR). This makes it easy for parents to show their children's language level when entering schools worldwide.

We will be offering parallel classes on an 'as needed basis'. Please let us know if this is important for you and at which time/day it would suit you.

We welcome feedback to continually improve the programme.

Starters Ages 3-5

We offer creative, fun, multi-sensory activities to build vocabulary and speaking skills and to encourage letter and word recognition. Children will enjoy developing skills through picture book readings, role play, songs, games and crafts. Soft introduction to pencil skills.
